

Paint

Anti Bacterial Super Hard Wearing Paint.

Re-engineered from unwanted paint specially formulated with SteriTouch® silver ion technology.

We're delighted to have supplied Tops Day Nurseries our Anti Bacteria paint for their walls and ceilings. Providing clean and healthier surroundings for the children, delivering a cost saving while helping the environment.

A purchase decision that's good for our children, our buildings and everyone's environment. An all-round sustainable business decision. Jeff Everett, Commercial Director, Hadland Care Group

Who are we?

Paint360 makes brand new paint from waste which has been tried, tested and developed in conjunction with the trade. Each litre contains a minimum 70% recycled content, while competing on quality and price with premium brands.

How can we help you?

We can help you meet:

- Carbon savings - 1 litre saves enough embedded carbon to drive a transit van 5 miles carbon free! (independently verified)
- Closed loop recycling targets
- CSR initiatives

removes 99.9%
of bacteria*

protected
by SteriTouch®

* independently tested and verified, trial data available on request.
